

**LINEA headlamp,
350 lumen,
with sensor.**

ROCKS®
OK-08.3032

Manual. The sensor headlamp is designed for indoor and outdoor activities such as camping, night jogging, cycling, emergency use, etc. The headlight adopts a new sensing mode, which can sense the wave of the hand to turn the light on/off. It is compact, smart and sensitive.

Model: NC-03-HL001

Bulb: COB white light + XPE LED.

Product size: 29*3*2.5 cm (excluding light strip), COB light panel 11.5*1.2 cm.

Net weight: 74 g.

Material: ABS + silica gel.

Switch: push switch + sensor switch.

Charging method: Type-c USB charging.

Gear: 5 gears: COB strong - COB weak - XPE strong - XPE weak - long press COB to flash.

The sensor switch turns on and off the sensor function to sense any gear.

Water resistance rating: IPX4.

The package contains: headlight + USB cable + color box.

Instructions for use:

1. Press the sensor switch to turn on the sensing mode, and then you can wave your hand to turn the light off.
2. When charging, the LED indicator light will be red and green, indicating that charging is complete. Please unplug the power supply in time.

Precaution:

1. Please make sure the headlight is fully charged before use. Recommendation: Use it on low current to help extend LED life and battery life.
2. Do not illuminate your eyes directly to avoid damaging your eyes. This product is not a toy, please ensure that children use it under adult guidance.
3. Do not expose the product to the sun for a long time. Do not use any chemicals when cleaning to prevent damage. After use, please store it in a cool and dry place.
4. Please do not disassemble the product to prevent damage to any circuit board.
